COMPANY OVERVIEW

INTAEROBASE is a specialized aviation supply chain facilitator based in Karachi, Pakistan, dedicated to sustaining global aerospace readiness. We bridge the critical gap between international aerospace manufacturers and Prime Contractors/MROs, providing a seamless procurement channel for certified aircraft components and Ground Support Equipment (GSE). With a focus on high-traceability requirements, we ensure every component meets rigorous international quality standards, including FAA Form 8130-3 and AS9120 certifications. Beyond procurement, we provide robust IT-Enabled Services (ITeS) to support the complex data and logistical demands of modern aviation operations.

DIFFERENTIATORS

- Sector-Specific:** Reliability: We understand the critical nature of the aviation industry and prioritize accuracy and lead-time management in every order.
- Regulatory Readiness:** Fully registered and active in SAM.gov (UEI: RKCQQ94X66D5, CAGE: STLX0), minimizing administrative risk for government partners.
- Responsive Logistics:** A dedicated Point of Contact Hafiz Faisal Farooq provides seamless communication and proactive updates on all procurement stages.

CORE COMPETENCIES

Aviation Supply Chain Excellence

Precision Sourcing & Procurement: Dedicated to the identification and acquisition of mission-critical aircraft components, ensuring adherence to exact technical specifications.

Global Logistics & Fulfillment: Streamlined procurement processes designed to accelerate lead times and ensure the seamless arrival of vital aviation parts.

Regulatory Compliance & Quality Assurance: Rigorous verification of all sourced components against aviation standard documentation, ensuring full traceability and safety compliance (including FAA Form 8130-3 or equivalent certification standards).

Strategic Sourcing for Obsolete & Hard-to-Find Parts: Expertise in locating and securing difficult-to-source components for both legacy and modern aircraft platforms.

IT-Enabled Services (ITeS) Integration

Aviation Data Processing: Supporting aviation supply chain operations with robust technical data management, inventory tracking, and system integration.

Technical Infrastructure Support: Providing resilient IT-enabled solutions that ensure real-time communication, data security, and operational continuity for complex logistical environments.
